Darryl,

Disregard the email I just sent a few minutes ago. Attached are the most recent RLSO (with RFA section changes tracked), and the most recent CLEAN version (accepting those changes in the RLSO version). I think this is what you were hoping for, but let me know if I am still off base.

Thanks,

Claudia

Now I'm confused...can you rename the "cleanest" version (with the RFA changes) and re-attach? That way it will be clear to other folks in OP which is the newest version.

Darryl,

The RLSO version I sent you earlier today reflecting our response to Lanelle's comment contained just the RFA section edits within the clean version we thought OP had, based on the file name in your email below. In my copy of the clean version with that same file name, I do not see the issue you are talking about. Nor do I see it in the RLSO version I sent earlier today.

I probably confused things slightly by renaming the RLSO version sent earlier today with today's date and apologize for that. I've attached the clean version we were under the impression OP had, plus a renamed RLSO version addressing Lanelle's comment that has the 5-3-16 date instead of today's date. Apologies for any confusion.

Thanks,

Claudia

Hi Deirdre,

Does OP have the latest, clean versions? I've attached the version we have. What prompts the question is that the table of contents jumps from "III. Background" to "VI. Summary of Final Action, Comments and Responses". Where are sections IV and V? I'm presuming they don't exist and the section heading need to be renumbered in the body of the document. Let me know. Thanks.
